

Washroom

Complete Hygiene Solutions

Triple Crown

Everyone expects a washroom to be clean, fresh and hygienic. If you run a restaurant, coffee shop, pub or any style of fast food establishment your customers will remember a dirty washroom long after the food you served.

CHS can help you to impress your customers and keep them coming back for more by working in partnership with you to ensure your washrooms stay fresh and hygienic. We can supply a range of hand drying equipment from the revolutionary Dyson Blade dryer to traditional hand towels in a vast range of colours and qualities to match your budget.

In addition we source and fit dispensers from lockable high quality stainless steel to economical plastics. Automatic urinal water treatment equipment and water saving devices are available to help reduce overheads along with programmable air fresheners that only work when you are open to reduce waste and cut costs.

Fragranced bactericidal surface cleaners and sanitisers manufactured to exceed the relevant British Standards are available in trigger sprays and 5 litre refills to offer you economy and peace of mind.
